### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

2.1. In the specification on page 1, before line 4, the following has been added:

--This application is a 371 of PCTUS00/16917 filed June 20, 2000 which claims the benefit of provisional application No. 60/140,160 filed June 21, 1999.--

### **STATEMENT OF REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance:

The claims in their present amended forms have overcome the prior art of record because, Raehse, the closest prior art, fails to teach, disclose or suggest a process for making a granular detergent composition consisting essentially of the steps in the manner as those recited, in particular wherein the mixing of the recited ingredients in the at least one moderate speed mixer and at least one conditioning apparatus provide particles having a bulk density in the range of 400 g/l to 650 g/l. The process of Raehse, which is performed in a twin-screw kneader, provides granules with an apparent density of above 700 g/l, see col. 7, lines 55-66, whose density is outside the scope of the present claims. Accordingly, the present claims are found to be allowable.
